Summary

I am a networking & telecommunications graduate (B.S.E) with project experience in the private sector. I worked at Digi Communications, also known as RCS & RDS (romania communication systems - romania data systems), as a Tech Support for clients. Now I'm developing a mobile app for Paymo, a Project Management Platform.

Experience

Fullstack Javascript Engineer - Paymo   2017 - present

· Implement a Notifications Systems - a queued system that sends email notifications, in-app notifications, and mobile notifications (using Firebase) to concerned users using PHP Resque & Redis

· Develop a timer widget using Electron so that users can easily track time and add time entries from their desktop platforms

· Develop a mobile app that resembles the web-app functionality using ReactNative, GraphQL & other libraries

· Create an onboarding progress tutorial for newly subscribed users using React

Junior Javascript Engineer - Paymo   2015 - 2016

· Implement a File Uploader system that uploads in chunks on S3
· Restyled an old application using SCSS compiler & give valuable UX advice

Tech Support / Customer Service Representative - RCS-RDS   2012 - 2015

· Diagnose client problems and solve them via intern systems
· Add & solve technical tickets

Education

Graduated as B.Sc.Eng - University of Oradea   2015 / 07

· Bachelor Thesis: Software Application for monitoring an object using a Smartphone
· Developed a web application using rtsp/rtmp protocol and capture information from smartphone camera and stream it to a server

Informal School of IT - Oradea Business Center   2014 - 2014

· Went through a web programming course
· Developed a basic site that required basic CRUD operations

B.Sc.Eng - University of Oradea   2011 - 2015

· Studied networks & telecommunications - networks infrastructures and get a basic knowledge in Matlab
· Programmed robots using Arduino, information visualization, professional essay writing
